

Vital Signs Practice Assignment

Name:

Instructions: After watching the required vital signs skills video, complete five sets of vital signs including a manual blood pressure, heart rate, and respiratory rate. If you are having difficulty obtaining accurate vital signs, please contact course staff for troubleshooting tips and guidance. This assignment is intended to help ensure you are comfortable obtaining a set of vital signs on a real patient prior to beginning patient contacts. Once completed, upload a copy of this document including your signature attesting that the information provided is accurate and true.

	Set #1	Set #2	Set #3	Set #4	Set #5
Date					
Time					
Patient initials					
Relationship to student
