

Mass Casualty Incident (MCI) Management

Define Mass Casualty Incident (MCI):

List the 3 goals of MCI management:

- 1.
- 2.
- 3.

First Arriving Unit – The 5 S's:

- 1.
- 2.
- 3.
- 4.
- 5.

What does SALT stand for?

Global Sorting (SALT):

Walking patients =

Wave / purposeful movement =

Still / obvious life threat =

List 4 life-saving interventions:

- 1.
- 2.
- 3.
- 4.

SALT Triage Categories:

Immediate (Red):

Delayed (Yellow):

Minimal (Green):

Expectant (Gray):

Deceased (Black):

START Triage:

What does START stand for?

RPM:

JUMPSTART (Pediatric Triage):

Key difference from START (breathing/apnea step):

START Decision Points

Respirations > 30 =

No radial pulse / cap refill >2 sec =

Cannot follow commands =

Critical Thinking

Why is triage a dynamic process?

Main goal during an MCI?
